Introduction
LightTro from Sauce™ is the first screw-in color changing
light of its kind. LightTro fits standard light fixtures and
features pre-programmed digital color lighting effects. The
easy-to-use control makes setting shows a snap.

Mode Descriptions
COLOR WASH - a smooth transition through the color spectrum.
FIXED COLORS - a static display of any one color.
WATER EFFECT - a soothing transition from blue to green to mimic
the changing tides.
SUNSET EFFECT - an illusion of a warm, red to orange, sunset.
ECLIPSE EFFECT - a gentle blue to magenta wash.
RANDOM COLOR - a random display of colors stepping from one
color to the next.

LightTro Models
LightTro comes in three models with push button control.

BULB   PAR   TWIST

Bulb: The ideal choice for lamps with snap-on shades.
PAR: Perfect for recessed or track lighting
Twist: Great direct-view lighting for chandeliers and
sconces.

Before you install
•Read the User Guide to ensure that you get the maximum
 effects and enjoyment from your LightTro. Pay close
 attention to cautions and warnings.
•If you are installing LightTro into a chandelier or limited
 access light fixture, use a lamp or easily accessible fixture
 as a test fixture to view, adjust, and select your desired
 effect. Once you have selected an effect, remove LightTro
 from the test fixture and place it into the desired fixture.
 LightTro's on-board memory remembers the last show
 selected when it is installed into its new location.

Push Button Control
LightTro with push button control offers
six color changing effect modes.
•Press and release to cycle through the modes: Color
 Wash, Fixed Colors, Water, Sunset, Eclipse, and Collage.
•Press and hold to modify each mode. The blink indicates
 transition to the next sub-mode.

MODE	PRESS AND HOLD ACTION
COLOR WASH	sets cycle time: fast, medium, slow.
FIXED COLORS	selects a color.
WATER EFFECT	sets cycle time: fast, slow.
SUNSET EFFECT	sets cycle time: fast, slow.
ECLIPSE EFFECT	sets cycle time: fast, slow.
